1. NATURE OF OPERATIONS

Operating businesses

Bitcoin Well Inc. ("Bitcoin Well" or the "Company") is on a mission to enable independence. The Company does this by making bitcoin useful to everyday people to give them the convenience of modern banking and the benefits of bitcoin.

The Company operates three business units, consisting of (i) Bitcoin ATMs, (ii) the Online Bitcoin Portal, and (iii) Bitcoin Well Infinite. The Bitcoin ATM business unit operates 170 Bitcoin ATM machines placed and operating throughout Canada. The Online Bitcoin Portal platform offers customers a fast and safe way to buy, sell and use bitcoin online in Canada and the USA. This business unit is designed to offer bank-like functionality coupled with the benefits of bitcoin. The Bitcoin Well Infinite business unit facilitates large bitcoin transactions (\$50,000 and above) for high net worth individuals and businesses.

Corporate administration

The address of the Company's registered office is 1700 Enbridge Centre, 10175 – 101 Street NW, Edmonton, Alberta. The Company's common shares are traded on the TSX Venture Exchange (the "TSXV") under the ticker symbol "**BTCW**" and on the OTCQB under the ticker symbol "**BCNWF**".

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on May 6, 2026.

2. BASIS OF PRESENTATION

a) Statement of compliance and basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the Company's audited consolidated financial statements for the year ended December 31, 2025 and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2025. These consolidated financial statements have been prepared using the accrual basis of accounting, and fair value accounting where appropriate, except for cash flow information. The policies applied in these condensed interim consolidated financial statements are based on IFRS issued as of March 31, 2026.

The preparation of these condensed consolidated interim financial statements in compliance with IAS 34 requires management to make certain accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. The areas where significant judgement and estimates have been made in preparing the financial statements are disclosed in note 2 of the Company's 2025 consolidated annual financial statements.

The functional currency for the Company and its subsidiaries is the Canadian dollar. The presentation currency for the Company is the Canadian dollar.

Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes the realization of assets and satisfaction of liabilities in the normal course of business for the foreseeable future. For the three months ended March 31, 2026, the Company incurred a comprehensive loss of \$2,854,826 (three months ended March 31, 2025 - loss of \$1,436,438) and reported a shareholders' deficit of \$9,657,669 at March 31, 2026 (December 31, 2025 - deficit of \$7,545,275).

Operations have been financed using a combination of cryptocurrency loans (Note 5), convertible debt (Note 7), line of credit (Note 8) and common share issuances.

Management applied judgements in preparing forecasts to support the going concern assumption, including the expected demand for the Company's current and future products, as well as expected operating expenses. These estimations may raise doubt about whether the Company will continue to operate as a going concern, and therefore, whether it will realize its assets and settle its liabilities in the normal course of business and at the amounts stated in the financial statements. Should the Company be unable to meet its obligations as they become due, the preparation of these consolidated financial statements on a going concern basis may not be appropriate.

b) Basis of consolidation

These consolidated financial statements incorporate the financial statements of the Company and its wholly owned subsidiaries, the Company's current active subsidiaries include Bitcoin Well Canada Ltd., Ghostlab Inc. and Independent Well USA Corp. All intercompany transactions and balances have been eliminated on consolidation.

As at March 31, 2026, the Company's cryptocurrency loans consisted of 145 bitcoins with a fair value of \$13,758,335 (December 31, 2025 - 145 bitcoins valued at \$17,416,072). Of this amount, 40 bitcoins, valued at \$3,795,656 (December 2025 - \$4,804,754) was owing to a director and officer of the Company and 10 bitcoins, valued at \$948,827 (December 2025 - \$1,201,078) was owing to a director of the Company. The changes in fair value were a result of the fluctuating prices of cryptocurrency.

During the three months ended March 31, 2026, the Company did not make any repayments on cryptocurrency loans (2025 - 20 bitcoin repaid valued at \$2,706,833).

The loans are unsecured and bear interest at fixed monthly fees ranging from 6.0% to 12.5% per annum, based on the value of the loans at the time of issuance or at a variable rate equal to bank prime plus 5% per annum based on the current value of the loan.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

Of the 145 bitcoins owing, 65 bitcoins, valued at \$10,322,315 are redeemable by the holders upon demand. The remaining 80 bitcoins, valued at \$6,167,373, are redeemable by the holder with a minimum 12 months advance notice and, therefore, have been classified as long-term liabilities.

The total interest incurred under these agreements for the three months ended March 31, 2026 was \$247,048 (2025 - \$184,501) of which \$43,200 (2025 - \$43,200) was incurred with an officer and director of the Company and \$27,447 (2025 - \$37,015) was incurred with a director of the Company. This expense has been recorded within Finance Fees.

At each reporting period, the Company revalues the outstanding loans based on current market price of the cryptocurrencies, using CoinMarketCap. For the three months ended March 31, 2026, the Company recognized an unrealized fair value gain of \$3,657,737 (Q1 2025 - fair value gain of \$2,253,103), as a result of changes in the market price of bitcoin.

Less: current portion	(1,306,685)	(1,493,754)
	\$ 5,769,179	\$ 6,180,242

Debenture A

As at March 31, 2026, the Company had an outstanding secured convertible debenture (“Debenture A”) in the principal amount of \$4,100,000 owing to Beyond the Rhode Corp (“BTR”), a company controlled by a director of Bitcoin Well. The Convertible Debenture incurs interest at Prime + 6.2% per annum, matures on May 1, 2028, and is convertible into common shares of the Company at a price of \$0.25 per share at the election of the holder at any time.

The Company has the right to force conversion of the principal amount if the volume weighted average trading price of the common shares for ten trading days equals or exceeds \$0.50 per common share. The Company also has the option to repay any amounts of the Debenture A with no penalty, at any time.

The Debenture A also provides for the payment of a monthly royalty to the holder equal to between 12% and 20% of the gross profit, defined as revenue less the cost of coins, generated from the Online Bitcoin Portal, until the latter of three months after the most recent conversion date or October 31, 2028. No royalty payments shall be made if the aggregate amount of all interest payments, future interest payments and royalty payments would exceed 24% per annum.

During the three months ended March 31, 2026, the Company paid interest of \$109,163 (2025 - \$116,850) and incurred royalties of \$33,878 (2025 - \$nil) related to Debenture A.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

Debenture A - Royalty liability

The Company determined that the royalty payments, which are required by Debenture A, constitute an embedded derivative liability that needs to be measured at fair value every reporting period. The calculated fair value was \$500,966 as of March 31, 2026 (December 31, 2025 - \$1,128,154). During the three months ended March 31, 2026, a fair value gain of \$627,189 (2025 - loss of \$27,557) was recognized in profit and loss related to changes in the calculated fair value. This fair value was determined at each period end by discounting the expected future gross profit from the Bitcoin Online Portal at an annual discount rate of 15%.

Debentures B

The Company has outstanding secured convertible debentures in the principal amount of \$1,120,735 owing to various arm's length parties (the "Debentures B"). The convertible debentures incur interest at the Bank of Canada policy interest rate + 8% per annum and mature between February 16, 2027 and March 28, 2027, subject to one automatic one year extension. The Debentures B are convertible into common shares of the Company at a price of \$0.15 per share at the election of the holder at any time.

The Company has the right to force conversion of the principal amount of the Debentures B if the volume weighted average trading price of the common shares for ten trading days equals or exceeds \$0.30 per common share. The Company also has the option to repay any amounts of these debentures with no penalty, with 30 days notice.

During the three months ended March 31, 2026, the Company paid \$28,325 (2025 - \$29,167) in interest related to the Debentures B.

Debentures C

The Company has outstanding unsecured convertible debentures in the principal amount of \$2,000,000 (the "Debentures C"). Of this amount, BTR holds \$900,000 in principal, representing 45% of the total outstanding. The remainder of the Debentures C are owing to various arm's length parties.

For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

The Debentures C bear interest of 8% per annum, payable semi-annually in arrears, on the first business day in July and January of each year (the "Interest Payment Date") and mature on December 30, 2029 (the "Maturity Date"). The Company shall pay, on each Interest Payment Date, all interest in the form of common shares of the Company (the "PIK Interest Payment") or in cash, at the sole discretion of the Company. In the event the Company elects to make a PIK Interest Payment, it shall deliver such number of common shares, within 10 business days of the Interest Payment Date, as is determined by dividing the accrued and unpaid interest due and payable on the Interest Payment Date by the 10 day volume weighted average trading price ("VWAP") of the Common Shares on the TSXV, immediately preceding the Interest Payment Date.

During the three months ended March 31, 2026, the Company issued 739,449 common shares at a deemed price of \$0.109 per share in satisfaction of the January 2026 PIK Interest Payment.

Each \$1,000 principal amount of the Debentures C is convertible into 4,347 common shares of the Company at the option of the holder thereof, at a conversion price of \$0.23 per share.

If the VWAP of the common shares on the TSXV is greater than \$0.32 for a period of 10 consecutive trading days, the Company may, within 10 business days of the occurrence of such event, force the conversion of the Debentures C by giving notice (the "Debenture Conversion Notice") to the holders of the Debentures C, and issuing a concurrent press release, and, in such case, the conversion date of the Debentures C shall be the date specified by the Company in the Debenture Conversion Notice, provided such date shall not be less than 30 trading days following delivery of the Debenture Conversion Notice.

The Debentures C are classified as a liability in the consolidated statement of financial position with an equity component representing the conversion feature as well as the warrants issued in conjunction with the issuance. The effective interest rate method is being used to amortize the liability component over the term of the Debentures. During the three months ended March 31, 2026, the Company recognized \$69,658 (2025 - \$63,831) in interest related to the Debentures C, including \$29,058 (2025 - \$23,831) in accretion for the three month period.

8. LINE OF CREDIT

The Company has a line of credit with Ledn, a lending firm that provides bitcoin-backed loans. As at March 31, 2026, the line of credit incurred interest at 12.4% per annum and was scheduled to mature in various tranches from June 2026 to October 2026. These tranches can be extended for additional 12-month terms, subject to mutual agreement.

Subsequent to March 31, 2026, all of the tranches advanced under the line of credit were renewed for an additional 12 months and now incur interest at 9.99% per annum and mature in various tranches in April 2027.

The line of credit requires the Company to hold a mix of cryptocurrency assets and cash (collectively the "Collateral") with the lender such that the debt outstanding will not exceed 70% of the Collateral (the "Loan to Value"). If the Loan to Value exceeds 70%, the lender may require the Company to deposit additional collateral with the lender to reduce the Loan to Value to 50%. If the Loan to Value exceeds 80%, the Company will be in default and the lender will be able to immediately demand repayment of the line of credit and exercise all of its rights and remedies available to collect on the outstanding balance, including liquidating the collateral held.

As at March 31, 2026, the lender held 202 Bitcoin with a fair value of \$19.2 million as security over the line of credit, representing a Loan to Value of 59%.

During the three months ended March 31, 2026, the Company recognized \$315,969 (2025 - \$312,915), in interest related to the line of credit.

9. SEGMENTED INFORMATION

The Company reports three operating business segments: (i) Bitcoin ATMs, (ii) Online Bitcoin Portal and (iii) Bitcoin Well Infinite, as well as a head office segment that includes overhead and administrative expenditures applicable to the whole business. These segments have been identified by management based on components of the business containing similar economic characteristics.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

The Bitcoin ATM segment comprises sales and expenses related to the Company's Bitcoin ATMs placed and operating throughout Canada. The Online Bitcoin Portal segment includes sales and expenses related to the Company's online bitcoin platform. The Bitcoin Well Infinite segment includes sales and expenses related to large bitcoin transactions (\$50,000 and above) for high net worth individuals and businesses. Management reviews the financial information for each of these segments separately when making business decisions.

All of the Company's property and equipment, intangible assets and goodwill are located in Canada.

10. MANAGEMENT OF CAPITAL

The Company defines the capital that it manages as its shareholders' equity, convertible debt, loans payable, loans payable - cryptocurrency, and line of credit. The Company's objectives when managing capital are:

- Maintaining adequate liquidity reserves and access to capital.
- Ensuring sufficient liquidity to support its corporate and administrative functions as well as being able to execute on strategic initiatives.
- Minimizing the impact of the current market and economic conditions through active capital management.

The Company manages its capital structure in a manner that provides sufficient funding for operational and capital expenditure activities. Funds are secured, when necessary, through debt funding or equity capital raised by means of private placements. There can be no assurances that the Company will be able to obtain debt or equity capital in the case of working capital deficits.

The Company is subject to externally imposed capital requirements related to its line of credit, see Note 8.

11. RISK MANAGEMENT

11.1 Financial Risk Management

The Company may be exposed to various financial risks, which could affect its ability to achieve its strategic objectives. The main objectives of the Company's risk management strategy is to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. The principal risks to which the Company is exposed are described below.

a) Credit Risk

Credit risk is the risk that a counterparty will be unable to pay any amounts owed to the Company. Assets that subject the Company to credit risk consist primarily of cash, digital assets, and accounts receivable.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

The Company limits its exposure to credit loss related to its cash by placing its cash with high quality financial institutions. The Company is also exposed to the risk of loss from theft of its cash held in ATM machines or in transit from ATM machines to financial institutions. This risk is mitigated by having no concentration of cash in any one location, the regular collection of cash from ATM machines and by using reputable service organizations to transport cash from its ATM machines to financial institutions.

Credit risks related to the Company's digital assets include that a portion of these assets are held by third parties, including lenders and liquidity partners. The Company is also exposed to the risk of loss associated with digital assets held in its controlled wallets. To mitigate these risks, the Company has implemented rigorous levels of internal controls to ensure the safety and security of its digital assets, including but not limited to multi-signature wallets, the use of cold storage wallets, and signing authority limitations.

The Company may, from time to time, hold a net asset position with its liquidity partners. The Company limits its exposure to potential credit loss by ensuring it is working with liquidity partners who have a high standard of care, and that a reasonable degree of oversight and review over their internal controls has been maintained, including the requirement of a current Systems and Organization Controls 2 ("SOC 2") report in order for the Company to work with the liquidity partner.

A significant portion of the Company's digital assets are also held by its lender as collateral for the line of credit (note 8). The Company does not hold, or have rights to the potential economic benefits of the cryptocurrency assets that comprise the collateral for the duration of the line of credit. The lender is also not required to deposit the collateral with a custodial service for safekeeping, and the lender can pledge, sell, lend, or transfer the collateral to third parties.

Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

b) Liquidity Risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they come due. As at March 31, 2026 the Company had a positive working capital balance of \$3,453,479 (December 31, 2025 – \$7,986,989).

As at March 31, 2026, the Company had cash of \$2,387,899 (December 31, 2025 – \$3,139,299) and short term liabilities in the table below:

	March 31, 2026	December 31, 2025
Accounts payable	\$ 213,726	\$ 350,201
Accrued liabilities	473,638	918,490
Deferred revenue	209,091	103,869
Lease liability - current	16,598	25,223
Convertible debt - current	1,306,685	1,493,754
Acquisition consideration payable	146,062	150,442
Line of credit	11,249,576	10,753,735
Loans payable	40,000	40,000
Loans payable - cryptocurrency	6,167,373	7,807,006
Total	\$ 19,822,749	\$ 21,642,720

Accounts payable, accrued liabilities, deferred revenue, and lease liabilities will be paid or extinguished within the next 12 months, as they become due.

The line of credit and current portions of loans payable - crypto currency and convertible debt (excluding \$185,950 related to the current portion of the royalty liability, which is anticipated to be paid) is expected to continue to be extended as required by the Company and agreed to by the lenders. As disclosed earlier, all of the tranches advanced under the line of credit were extended for an additional 12 months in April 2026.

In addition, the convertible debentures that are scheduled to mature in Q1 2027 are also subject to an automatic one year extension. However, there is no guarantee the tranches advanced under the line of credit or the convertible debentures will be extended by the lenders.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

The Company's line of credit is also subject to minimum collateral covenants, which if insufficient, could result in default, and the requirement to immediately repay any balances outstanding. Should such an event occur, the lender may also dispose of the digital assets that it currently holds as collateral for the line of credit. See *Note 8* for additional information.

ATM Program

On March 28, 2025, the Company established an at-the-market equity program (the "ATM Program") that allows the Company to issue and sell, at its discretion, up to \$5,000,000 of common shares to the public from time to time. Distributions of the shares under the ATM Program will be made pursuant to the terms of an equity distribution agreement between Bitcoin Well and Haywood Securities Inc. (the "Agent")

All shares sold under the ATM Program will be sold through the TSX or other recognized Canadian marketplace at prevailing market prices at the time of sale. The ATM Program will be effective until the earlier of March 28, 2027 and the completion of the issuance and sale of all of the Shares issuable pursuant to the ATM Program, subject to earlier termination by Company or the Agent in accordance with the terms of the distribution agreement.

The ATM Program is intended to provide the Company with additional financing flexibility should it be required in the future. The volume and timing of distributions under the ATM Program, if any, will be determined in the Company's sole discretion. As Shares distributed under the ATM program will be sold at the prevailing market price at the time of sale, prices may vary among purchasers during the term of the ATM Program.

The Company intends to use the net proceeds from the ATM Program, if any, together with the Company's current cash resources, to fund general corporate purposes, including ongoing operations and/or working capital requirements; to buy bitcoin as part of its bitcoin treasury strategy; to repay indebtedness outstanding from time to time; to complete future acquisitions; to fund research and development, intellectual property development; or for other corporate purposes.

Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

During the three months ended March 31, 2026, the Company issued 850,000 common shares, for net proceeds of \$97,558 related to the ATM Program.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company may also seek additional financing through debt or equity offerings, but there can be no assurance that such financing will be available on terms acceptable to the Company or at all. Any equity offering will result in dilution to the ownership interests of the Company's shareholders and may result in dilution to the value of such interests.

c) Foreign Currency Risk

The Company is exposed to foreign currency risk in relation to its line of credit, which is denominated in USD. Based on the balance of the line of credit denominated in USD at March 31, 2026, a 5% increase or decrease in the exchange rate would result in a gain or loss of \$562,479. The Company is not currently exposed to any other significant foreign exchange risk.

d) Digital Asset and Market Risk

Digital asset and market risk incorporates a range of risks. Movements in risk factors, such as market price risk and currency risk, affect the fair values of financial assets and liabilities. The Company is exposed to market risk on cryptocurrency held as digital assets, inventory, and cryptocurrency loans. Cryptocurrency prices are affected by various forces including global supply and demand, interest rates, exchange rates, inflation or deflation, and global political and economic conditions.

A decline in the market prices for cryptocurrencies could negatively impact the Company's future operations. The Company has not hedged the conversion of its inventory into sales. Cryptocurrencies have a limited history, and the fair value historically has been volatile. Historical performance of cryptocurrencies is not indicative of their future price performance. The Company's inventory consists primarily of Bitcoin and Ethereum.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

With a 10% change to the price of bitcoin, the Company's digital assets at March 31, 2026 would increase or decrease by \$1,944,401, inventory would increase or decrease by \$94,883 and the Company's loans payable - crypto currency would increase or decrease by \$1,375,799.

e) Interest rate risk

The Company is exposed to interest rate cash flow risk associated with its Debenture A and Debentures B as these instruments bear interest at a variable market rate. With a 100 basis point change in market interest rates, the Company's interest expense for the three months ended March 31, 2026 related to these debts would increase or decrease by \$13,052.

The Company is not exposed to significant interest rate risk on its line of credit, Debentures C, and loans payable - crypto currency as the majority of these liabilities incur interest at a fixed rate.

11.2 Fair Values

The carrying values of cash, accounts receivable, accounts payable and accrued liabilities, acquisition consideration payable, and line of credit approximate their fair values due to their short-term nature. The carrying value of the Company's convertible debt (excluding the royalty derivative liability) does not differ significantly from its carrying value using observable inputs as the debt bears interest at a variable rate or at fixed rates that approximate market rates for debt of similar characteristics.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, or inputs that are not observable, either directly or indirectly, for substantially the full term of the asset or liability.

Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where otherwise stated)

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The Company's financial instruments and digital assets have been classified as follows:

As at March 31, 2026	Level 1	Level 2	Level 3	Total
Fair value through profit and loss				
Loans payable - cryptocurrency	\$ -	\$ -	\$ 13,758,335	\$ 13,758,335
Convertible debt - royalty liability	-	-	500,966	500,966
Fair value through other comprehensive income				
Digital assets	-	19,444,007	-	19,444,007

As at December 31, 2025	Level 1	Level 2	Level 3	Total
Fair value through profit and loss				
Loans payable - cryptocurrency	\$ -	\$ -	\$ 17,416,072	\$ 17,416,072
Convertible Debt - Royalty liability	-	-	1,128,154	1,128,154

Digital assets	-	24,568,769	-	24,568,769

12. EQUITY

12.1 Authorized Share Capital

The Company is authorized to issue the following:

- Unlimited number of voting common shares, without nominal or par value.
- Unlimited number of non-voting preferred shares, without nominal or par value.

12.2 Shares issued

During the three months ended March 31, 2026, the Company issued the following common shares:

- 850,000 common shares issued on the TSXV at an average price of \$0.12 per share pursuant to the ATM Program, providing gross proceeds of \$102,328. Commissions and other related costs of \$4,640 were paid to the Agent in connection with these distributions, resulting in net proceeds to the Company of \$97,688. In addition, initial set up costs for the ATM Program of \$5,623 were allocated against the net proceeds resulting in a net addition of \$92,065 to share capital;
- In February 2026, 920,788 common shares were issued at a deemed price of \$0.105 per share and 1,354,916 common shares were issued at a deemed price of \$0.084 per share to settle total outstanding debt obligations of \$210,496. The debt obligations related to accrued interest owing pursuant to certain cryptocurrency loans and a convertible debt agreement;
- In Jan 2026, and pursuant to a convertible debenture indenture, the Company elected to settle interest owing on those debentures of \$80,600 by issuing 739,449 common shares at a deemed price of \$0.109 per share;
- 2,307,456 common shares were issued to two different arm's length parties for marketing and sponsorship services provided to the Company in the amount of \$230,833; and
- 34,972 common shares were issued upon the exercise of stock options for proceeds of \$1,747.

The Company recognizes revenue when customers purchase cryptocurrency and it is transferred to the customer's account. The Company's performance obligation is the confirmed transfer of the purchased cryptocurrency to the customer's wallet. The Company purchases bitcoin and other cryptocurrencies from cryptocurrency exchanges and applies a margin before selling it to customers.

The amounts sold to and purchased from the Company's customers are recorded as revenue on a gross basis, and the inventory sold is the cost of coin, as the Company is the principal in the cryptocurrency sale transaction.

The Company has been determined to be the principal because it controls the cryptocurrency before delivery to the customer, the Company is primarily responsible for the delivery of the cryptocurrency to the customer, the Company is exposed to risks arising from fluctuations in the market prices of cryptocurrencies before delivery to the customer, and the Company has discretion in setting prices charged to the customer. Sales to cryptocurrency exchanges represents coins sold to exchanges as a function of managing the Company's coin inventory balance.

The Company recently expanded its Online Portal and Bitcoin Well Infinite service lines to serve customers located in the United States. Transactions conducted with US based customers are currently facilitated through third party service providers that purchase and sell the cryptocurrency directly with the customers. The Company is compensated by the third party service providers through a monthly per transaction fee based on a sliding scale dependent on quarterly volumes.

During the three months ended March 31, 2026, the transaction fees earned from the third party service providers were USD \$54,194 (2025 - USD \$76,518). Gross transaction volumes related to these transactions for the three months ended March 31, 2026 was USD \$5,309,558 (2025 - USD \$7,341,830).

During the three months ended March 31, 2026, the Company generated revenue of \$11,412,235 with one customer. This revenue was included in cryptocurrency exchange revenue above and within the Bitcoin Well Infinite business segment.
