

Notice & Access 2023

We use Notice and Access. It allows us to deliver the 2023 Management Information Circular to registered shareholders and beneficial holders by posting the Circular and other related materials online instead of mailing the documents. Notice and Access is an environmentally friendly and cost effective way to distribute the Circular. It reduces printing, paper and postage.

You can access the 2023 Management Information Circular and 2022 annual financial documents by clicking on the links below. On this page, you will also find the documents that our registered shareholders and beneficial holders will receive in the mail.

Shareholders who would like a paper copy of the 2023 Management Information Circular and/or 2022 annual financial documents can request one by following the instructions on the Notice of availability of proxy materials received in the mail.
